**GAI is accurate  
because it is trained  
on verified data**

AI-powered tools like ChatGPT generate responses that can be wrong because they use data that contains errors

GAI is different. It is trained on our multilingual data that was verified by human experts. The result is AI translations that sounds human, not mechanical

GAI empowers you with new insights and secure, easy access to saved translations

## GUARANTEED QUALITY

- ✓ ISO:27001 Certified Security
- ✓ Improved Accuracy
- ✓ Consistency Across Content

# GAI human verification

## Have an expert verify your translation with GAI

It is now quick and easy to have a certified expert linguist verify your translation with GAI's automated Expert-in-the-Loop feature

This gives you extra assurance. The expert can also create new multilingual content for you. Guildhawk has over 3,000 certified linguists that are tested and trusted

### KEY FEATURES

- Seamless integration via API
- Expert in the Loop (EITL)
- Automated collaboration
- Insights & Reports

### GUARANTEED QUALITY

The quality of your human and AI translations is guaranteed by our robust ISO:9001 certified quality management system

These controls are independently audited by an external inspector

### BENEFITS

- Faster translation
- Improved accuracy
- Consistency across content
- Enhanced productivity
